## CEO MESSAGE

Abdullah Electro Mechanical Works (AEMCO) was founded in year 2022 with Professional Engineering Services for Building's Mechanical and Electrical System.

We provide the one stop solution in Engineering, Procurement, Construction and Management with Creation, Innovative Idea, Implementation and Perspective Planning to get best result possible.

We always consider about the better engineering services to fulfill the customers' requirement and satisfactions. We Abdullah Electro Mechanical Works (AEMCO) are not only turnkey contractor but also be able to provide the consultancy and project management team with reasonable budget and reliability quality control strategy.

We are young and enthusiastic engineering firm to create our organization with mutual understanding, teamwork, supporting each and other, positive attitude working spirit to achieve the quality work done.

We Abdullah Electro Mechanical Works (AEMCO) had completed and successfully handed over some projects. We normally review and seek the solution for our activities, progress, development, and future planning in weekly, monthly and annual basis to hit our milestone target.

We try to develop the young generation engineer to be as Professional Engineer, understanding in engineering ethics, business development and to support our country with contribution in technology, communication, and environmental preservation.

**Sardar Nasir Ali Khan**  
Cheif Executive Officer

## COMPANY **INTRODUCTION**

Abdullah Electro Mechanical Works (AEMCO) is MEP specialist with core expertise in centralized Heating, Ventilation & Air Conditioning (HVAC) Systems. The company established in 2022 as a registered partnership. However, the founders were in HVAC business since 1999. We have diverse expertise in commercial and industrial MEP systems. We believe in providing the most energy efficient and reliable MEP systems with an installation that has ease of operation and maintenance.

## MISSION STATEMENT

“Abdullah Electro Mechanical Works (AEMCO) is dedicated to the highest quality of energy efficient MEP systems delivered with ingenuity and reliability.”
